

Week of September 27, 2010 – October 1, 2010

The Allen Company is making progress in the demolition of the first two blocks of the downtown streetscape project. Storm drain boxes will be put in at the Oak and Main intersection and the concrete curb forms will begin being set. Utility trenching will also begin this week.

We appreciate the patience of Nicholasville residents and commuters. Feel free to attend our public meetings at 10:00 a.m. each Monday morning.
